

Environmental Audit

Identity Recode Planner

Purpose

To identify the environmental conditions that support or interfere with identity installation, daily consistency, and behavior change.

Instructions

1. Complete this audit honestly.
2. Evaluate the environment you live in, not the environment you wish you had.
3. Focus on what is easy, what is difficult, what is visible, and what repeatedly pulls you away.
4. Repeat this audit after major changes to your routine, space, or social context.

Scoring (1-10)

1 = Strongly blocking | 5 = Neutral | 10 = Strongly supportive

Section 1: Physical Environment

1. My physical space makes good behavior easy: []
2. My workspace or home setup supports focus: []
3. Important tools are easy to reach: []
4. Unhelpful objects are out of sight or removed: []
5. My space reminds me of the person I am becoming: []
6. My space reduces distraction instead of increasing it: []
7. My physical layout supports my daily routines: []
8. My environment lowers friction for the behaviors I want: []

Physical Space Score (average): []

What is the biggest physical obstacle to my transformation?

Section 2: Digital Environment

1. My phone and digital devices support my goals: []
2. I am not overexposed to distracting content: []
3. My digital notifications are under control: []
4. My social media use does not undermine my identity goals: []
5. My digital environment contains useful reminders, not only noise: []
6. I can access useful materials without getting lost in distraction: []
7. My digital habits are intentional rather than automatic: []

8. I have reduced unnecessary digital friction and clutter: []

Digital Environment Score (average): []

What digital trigger most often weakens my focus?

Section 3: People and Influence

1. The people around me support the identity I am building: []
2. I spend enough time with people who model the behavior I want: []
3. My social circle does not normalize the habits I am trying to leave behind: []
4. I feel understood by at least some of the people around me: []
5. I can maintain my direction even when others do not share it: []
6. My relationships increase my discipline rather than weaken it: []
7. I know which relationships strengthen or weaken my progress: []
8. My social environment supports long-term change: []

Social Circle Score (average): []

Which relationship most strongly affects my consistency?

Section 4: Tools and Resources

1. I have access to the tools I need to follow through: []
2. My routines are realistic for my current life situation: []
3. Time is allocated for the behaviors I want to build: []
4. I have enough structure to avoid unnecessary confusion: []
5. I know where to begin when I want to act: []
6. My resources reduce hesitation instead of creating it: []
7. I have support systems when motivation is low: []
8. I do not rely on willpower alone: []

Resource Access Score (average): []

What resource is missing or underused?

Section 5: Friction Point Identification

Mark each item as: Low friction / Moderate friction / High friction

- Morning routine: []
- Starting focused work: []
- Making healthy choices: []
- Saying no to distraction: []
- Returning after a lapse: []

Keeping commitments: []

Logging progress: []

Ending the day intentionally: []

Where does my environment create the most resistance?

Section 6: Trigger Design

1. My environment contains cues that prompt the right actions: []

2. I have placed reminders where they will be seen: []

3. My cues are tied to specific behaviors, not vague intentions: []

4. My environment makes the next step obvious: []

5. I can tell what to do when I enter a specific space: []

6. My cues reduce decision fatigue: []

7. I am using prompts intentionally, not randomly: []

8. My cues support repetition: []

Cue Quality Score (average): []

Which cue should I add, remove, or strengthen?

Environmental Summary

Physical Space: [] Digital: [] Social: [] Resources: [] Cues: []

What is the strongest supportive factor in my environment?

What is the strongest blocking factor in my environment?

What single environmental change would create the biggest improvement?

Final Environmental Statement: My environment currently makes it easier to...
